Aldermanic Committee Gives Hearing on Wagner-Donohue Bill.

HYLAN URGES ADOPTION

State Legislation of the Board of Aldermen. The Aldermanie Chamber was crowded and so many speakers appeared that it became necessary to limit debatz.

Mayor Hylan briefly expressed his conviction that the city should own and operate its utilities. Senator Wagner fuced the bill in their respective branches of the Legislature, and William A. De Ford, representing William Randolpa Hearst, were among the advocates of the measure. Stewart Browne and half a dosen representatives of real estate in-

The advocates urged that municipa! ownership would improve the service and chespen its cost to the people. The opclared that it would increase the burden

upon the taxpayer.

"I hardly think there is a person in this room," said the Mayor, "who would have the audacity to oppose a measure of this kind that would give the people the right to say whether they should or should not have municipal ownership and operation. I want to relate an incident that shows how the Public Service Com-mission has failed in caring for the interests of the people."

Cites R. R. T. Abuses.

The Mayor then stated that up to within a year, when the new subway cars were put in operation, the Brooklyn Rapid Transit Company had steadily decreased the number of cars on its various lines. Between 1907 and 1917. he asserted, the company had bought 101 new cars, but had scrapped 133 cars, with a net loss of thirty-two, although the population of the borough had in creased by several hundreds of thou-mands and the Public Service Commis sion had cost the taxpayers \$10,000,000.

"I am satisfied," the Mayor added.
"that the great mass of the people will vote in favor of municipal ownership and peration, if they have the chance, be

Senator Wagner explained that the bill was permissive, not mandatory. Under its provisions the legislative body of a city (in the case of New York joint action would be necessary by the Board of Estimate and Board of Aldermen) would have the right to submit to a vote of the people the question whether or not they wished to acquire or construct a public utility and to operate it. A referendum also could be had on a petition signed by 20 per cent. of the voters.

"In all communities where the plan has been tried it has been financially successful," said the Senator. "Under pany and Laclede Gas Company, which pany and Laclede Gas Company, which Senator Wagner explained that the bill

Incidentally, Mr. De Ford eulogized Mr. Hearst, and said that he had fought for many reforms until they had been

victorious.

President Smith of the Board of Aldermen said that body had decided to hold hearings and take a stand on questions in Albany so as to put on record the members of the board on every legislative measure that affected the city of

"I can say to the opponents of this bill," he observed, "that this is very easy medicine. It gives them a chance to vote against municipal ownership, if they desire. I advise them to take the dose amiably."

In the course of an address which he read, James P. Holland, chairman of the State Federation of Labor, said: For four hours yesterday afternoon advocates and opponents of the bill that would enable cities to own and operate public utilities discussed the measure at a hearing given by the Committee on that they may have the opportunity of taking over the ownership and operation of these utilities, there is no question but that they will take the methods and that they will take the methods and that they will take the methods and the means in their own hands."

The State Federation of Labor, said:

Chicago, March 8—The revolt of milk prices set by Food Commissions is over the ownership and operation of this kind is placed at the disposal of the people, that they may have the opportunity of taking out they may have the opportun means in their own hands."

Urged in Name of Decency.

"Our noses have been held so close to the grindstone that we haven't had a chance to use our brains," said Miss Melinda Scott, speaking for the work-ing women, "but we have brains. We want to serve notice on the people that we are alive. On behalf of the women I want to say that this bill should go through in the name of common de-cency. Those who do not have to use the cars do not know what insults we have to put up with on account of the

"The railroads are now hiring women at 24 cents an hour. They are exploiting women. Their statement that they can't get enough men is not true. Although they seem to pay well at the

start, it takes a woman sixteen years to get as much as 36 cents an hour."
"I want to say that we do not want home rule," said Stewart Browne, speaking against the bill. "If we had it the administration would run away with the taxing power.' "I helped to elect our Mayor and I want to say he was not elected on the

issue of municipal ownership," declared Dr. Abraham Korn of the Harlem Property Owners Association. "We elected him by telling the people of the extravagances of the Mitchel administration." Others who spoke against the bill were Edward P. Doyle, Thomas Krekler, Dr. Henry Berg and George H. Mann, a lawyer of 51 Chambers street. The aldermanic committee will con-

sider the bill in executive session, but it is a foregone conclusion that !! will recommend its passage to the Leg-

For the Chicago district, which in-cludes southern Wisconsin, northern Illi-nois, northwestern Indiana and western Michigan, the price was at first fixed at \$2.83 per hundredweight to the farmer. This figure was arrived at by a commis-sion which at the request of the State Food Administrator, Harry A. Wheeler, went into every phase of the subject. Farmers, however, protested so vigorthroughout the country have made pro-portionate reductions in their bids. Parmers in the Chicago district were reported on the verge of a strike as a re-

WASHINGTON, March 8 .- Food Admin istration officials had not received word to-night of the refusal of Illinois milk condensers to abide by price agreements made with milk producers. The agree-ments were voluntary and negotiated through the good offices of the Food Administration, which has no authority to fix a price for milk. The Administra tion is powerless to enforce the agree-ments, it was explained to-night, and any action taken probably will be con-fined to mediation of the difficulty.

C. LOOMIS ALLEN FOUND.

Railway Expert Who Disappeared From Baltimore Is in St. Louis.

Special Despatch to THE SUN. STRACUSE, March S .-- C. Loomis Allen. Syracuse railway expert, who disappeared from a Baltimore hotel January 10, is in St. Louis and will return to this city early next week, according to statements of his friends to-day. Mr. Allen was a member of the Gov-ernment Railway War Board, having then darted for Riverside Drive and disvolunteered his services shortly after this country entered the war. Relatives and business associates offered rewards and all professed to have no knowledge of his whoreabouts and even now information is forthcoming how they learned he was in St. Louis.

Camps Athletic Equipment.

A big and varied array of high class talent has been provided for the concert to be given in the Hippodrome to-morrow night for the benefit of the Army and Navy Athletic Equipment Fund of the New York Athletic Club. All the entertainers have volunteered their services. They include stars from grand opera, leading lights of the theatrical

stage, playwrights and composers.

The entertainment is in charge of the committee on athletics, of which Matthew P. Halpin is chairman. During the ast year the club has done excellent work in furnishing athletic equipment work in furnishing athletic equipment and giving entertainment for the soldiers and sailors at the various camps and stations around New York. It is desired to enlarge the scope of
